COMUNE DI TADASUNI

REVISIONE:REV 01

DATA:Novembre 2017

PIANO DI CLASSIFICAZIONE ACUSTICA
DEL TERRITORIO COMUNALE
DI TADASUNI

OGGETTO TAVOLA:CLASSIFICAZIONE CENTRO ABITATO

TAV.2

SCALA:1:5000

I PROGETTISTI:

Dott. Ing. Andreina Flore

Dott. Ing. Massimiliano Lostia di Santa Sofia

The figure is a detailed acoustic map of the town of Tadasuni. It features a topographic background with contour lines indicating elevation. Buildings are represented by red polygons. The map is overlaid with various colored regions: a large blue hatched area in the center-left, and several smaller blue hatched areas scattered throughout the town, primarily in the central and right-hand portions. These blue areas represent zones designated for temporary events. Numbered circles (1 through 7) are placed at specific locations: 1 is in the upper right, 2 is in the center, 3 is in the lower center, 4 is in the center-left, 5 is in the lower center, 6 is in the upper right, and 7 is in the center. These numbers correspond to the list of areas provided in the legend. The map also shows roads, green spaces, and other geographical features. A north arrow is located in the bottom left corner of the map area.
