

The figure illustrates the urban morphology and typology of the study area through a series of aerial photographs and corresponding maps. The top row displays three aerial views of the study area, each with a yellow dashed line highlighting a specific urban block. The middle row shows three maps of the same area, with the yellow dashed line replaced by a solid orange line. The bottom row shows three maps of the same area, with the yellow dashed line replaced by a solid green line. The maps are color-coded to represent different urban typologies: green for 'Urban morphology and typology', orange for 'Urban morphology and typology', and yellow for 'Urban morphology and typology'. The maps are labeled 'FOTO AREA' and 'FOTO AREA'.

[illegible]

The architectural drawings for the 'Rinascita' housing complex in Mantova are presented in a grid-like format. The top row features a site plan (Pianta) and three elevations (Facciate). The middle row contains three sections (Taglio). The bottom row shows a plan view (Pianta) and two more elevations (Facciate).

Site Plan (Pianta): Shows the layout of the housing complex, including the main entrance, internal courtyards, and surrounding streets (Via Adua, Via Aldo Moro, Via San Michele, Via Aldo Moro, Via Aldo Moro, Via Aldo Moro). The plan is oriented with North (N) at the top.

Elevations (Facciate): Three elevations are shown, each with a corresponding section line. The elevations depict the building's facade, including windows, doors, and structural details. The sections show the internal layout, including rooms, corridors, and structural elements.

Sections (Taglio): Three sections are shown, each with a corresponding elevation line. The sections illustrate the building's internal structure, including the roof, floors, and walls. The sections are oriented with North (N) at the top.

Plan View (Pianta): A detailed plan view of the building, showing the internal layout, including rooms, corridors, and structural elements. The plan is oriented with North (N) at the top.

Elevations (Facciate): Two more elevations are shown, each with a corresponding section line. The elevations depict the building's facade, including windows, doors, and structural details. The sections show the internal layout, including rooms, corridors, and structural elements.
